

**Tuned. Tested. And ready to fight.**

**ARGCS.** Our newest generation automatic electronic test technology is the first ever to provide a single test station that can serve the Navy and Army equipment. All without reconfiguring hardware, test adaptors or software. ARGCS—Agile Rapid Global Combat Support—fully integrates diagnostics, directed test, net-centric capabilities, yet at a lower cost. And it delivers off-the-shelf synthetic plug and play instrumentation. ARGCS technology is prepared to pass the ultimate test.
