

NORTHROP GRUMMAN

DEFINING THE FUTURE™

©2008 Northrop Grumman Corporation

Protecting our Heroes.

DIRCM. No one is better equipped to defend our people in combat. With over 40 years of experience and systems on approximately 40 different small rotary-wing and large fixed-wing transports platforms, Northrop Grumman is the only company with DIRCM systems in the field today. So when things heat up, we're there.
