

NORTHROP GRUMMAN

DEFINING THE FUTURE™

©2008 NORTHROP GRUMMAN CORPORATION

Closing the gaps. Expanding the defense.

NETTED SOLUTIONS. To protect the fleets and fulfill its mission, the Navy must guard a vast theater that includes every sphere—land, sea, undersea, air, and space. The Navy's vision is Sea Shield, a multi-layered, fully integrated system in which every component collaborates. Northrop Grumman is leveraging decades of creative innovation in electronics and unmanned sea and air vehicles to bring this vision to reality.
